“Transform your way to pay”

“**Help India Pay**” is Help India Pay is a leading payment solution platform that is managed by Help India online Foundation. It was started back on Aug 11, 2020. We are providing any type of payment solutions that we are serving India through our business services like instant Recharge and Bill Payment, Booking all over India, Shopping portal, and many more.

With Help India Pay, we strive to bring you daily needs through your mobile phone and desktop.

With the trust of 7k+ users and counting a network of various banks and modern trade partners across the country, we are one of the most widely accepted wallets in our country.

With innovation supported by various technologies, we continuously upgrade our wallet that is specially designed to fulfill user’s daily requirements. So be it mobile, DTH/Data card Recharge, Bill Payments, Electricity bill payments you can do it all securely with Help India Pay. Along with this, here are some other ways to make money online by using the refer and earn program. (on click of referring and earn open one page which gives details of repurchase income and helps India membership)

Mention below is an overview of the users-

Total Users	6562
Total Transaction	Over 1,00,000
Promoter User	5921

We are providing three types of Basket Services:-

- Government to citizen services(G2C)- These are the services, such as PAN card services, FASTAG, Pension Certificate, Housing Security, Municipal Tax, Income Tax Return, and so on. Through this platform, the government avails essential services to its citizens efficiently. Information that should be in the public domain is conveyed with the minimal cost through these platforms.

Annual Report 2020

50, Arpit Nagar, Gandhi Path, Vaishali Nagar, Jaipur (Raj.) - 302021

- Business to Citizen Services(B2C)- In B2C there is no involvement of the Middleman, the services that are provided by the businesses reach directly to the consumer. We are providing services like Mobile Recharge, Mobile Bill Payment, DTH Recharge, Money Transfer, Data Card Recharge, Online Bazar, Insurance Premium Payment, and many more
- Business to Business Services (B2B)- These are the services made between two merchants for goods and services. Services like Adult Literacy, Digital Literacy, Distance Education, Agriculture, Recruitment, Training, and Skill Development.

In the future, we will keep adding increasing innovative, customer-centric digital payment services that are convenient to access, adapt, and use. We are soon coming with the feature of UPI payment. It allows the transfer of money from one bank account to another instantly via one's mobile phone. Payments can be made via an app on mobile devices only. We try our best to provide you full-stack financial services.
