

Women Wing

Annual Report – 2020

50, Arpit Nagar, Gandhi Path, Vaishali Nagar, Jaipur (Raj.) - 302021

**"No country can reach the peak of progress till then
Until her women walk with the shoulder to shoulder."**

In our country, women have received special respect since ancient times. The women here have made a golden impression with their contribution in every field. Whether it is a Vidushi Gargi, Rani Lakshmbai in the field of battle, Meera in the field of devotion, Kalpana Chawla in the field of space science. These are a few names, but if a list is made, a book can be made.

Since the early times of Help India, women have set an example of success by shaking the shoulders of men. In every social event of Help India, women have shared their equal participation with men. In the plantation program of Help India, women from all over the country have planted trees and brightened the future of the coming generation. Along with this, a large number of women have also come forward to make the blood donation program successful.

In the year 2020, millions of people were infected and millions of people lost their lives all over the world due to the Corona epidemic. In India too, the lockdown was imposed across the country due to rising corona cases since March. In such times of crisis, the women's wing of Help India sewed and distributed millions of masks. During the lockdown, there was a food crisis in front of the laborers, in which the women members of Help India made food at home and made their packets, and reached the needy people.

Along with Corona, the drug de-addiction program has been made successful by women. A woman walks in worrying not only about her home but the entire society. She not only makes the home environment good but is also at the forefront of removing the evils of society. Through the drug addiction program of Help India, women motivated people to quit, as well as the flower stop provided by Help India, helped a large number of people to quit.

The women's wing of Help India is playing its role by being at the forefront of women's empowerment across the country. Today they have the opportunity to get a good education from the education wing of Help India. Apart from this, she is becoming self-sufficient by increasing her own skill through the employment portal. With this, today, she is able to make herself strong by doing business of herself after getting a loan from Help India Finance.

National Women's Wing Executive

Serial Number	Post	Women Wing Executive
1	Wing Chairman	Mrs. Anita Kohak
2	Wing Charge	Renu Karnwal
